**DOOR ENGINEERING DOORS IDEAL FOR A RANGE OF APPLICATIONS**

Door Engineering and Manufacturing is the premier manufacturer of four-fold, top hung and bottom rolling, vertical lift and various other door systems for industrial, commercial, fire rated, aviation and specialty door applications. Complete door systems from Door Engineering meet the most challenging and unique specifications.

Door Engineering's industrial and commercial door systems are designed for maximum strength and reliability and are available in a variety of sizes and materials to meet specific requirements.

Door Engineering's fire rated doors are also available in a variety of configurations and are UL and FM approved for up to four hours. Door's complete line of aviation door systems includes hangar and tip-up canopy doors that provide a weather tight seal. Aperture sliding door systems are also available.

From standardized systems to custom designs, Door Engineering and Manufacturing puts more than 40 years of door system experience to work on each project. Door Engineering's product development specialists collaborate with their client's engineers to ensure complete customer satisfaction and long-term value.
